MARPAI

What will be.

THE SMART HEALTH PLAN
Good Health Never Felt Better.

Marpai helps people live better, stay stronger and spend less on healthcare by using deep learning, the most advanced artificial intelligence, to enable healthier living and reduced costs.

Our *SMART Health Plan Services System* empowers plan members to do things they could never do before and with all the convenience that only advanced AI delivers.

- Avert and reduce chronic illness and costly procedures with early intervention.
- Save money with top quality in-network providers and telehealth.
- Simplify complex care with experts that guide your best journey.
- Avoid unnecessary ER visits, procedures, and re-admissions.

And our Marpai SMART app is like a personal health assistant that guides you with friendly nudges and alerts and makes it easy to do just about everything - from booking appointments to ordering Rx to tracking deductibles and spending.

Feeling better already?

TopCare:
We recommend the top 10% of healthcare providers that meet your medical need based on risk-adjusted, peer-reviewed industry ratings on quality, safety, and satisfaction.
THIS JUST MIGHT SAVE YOUR LIFE

Only Marpai helps you get ahead of your health by using deep learning to map your near-term future health state and uncover exactly what you can do now to avoid and reduce problems later, especially chronic illness and major procedures. Our medically trained Care Guides use these future insights to help you avert disaster and stay strong. Only Marpai provides insights to future heath states so you can take action today and prevent problems tomorrow.

Marpai Care Guides
Medically trained care experts provide guidance every step of the way.

WHEN YOU HAVE MARPAI, YOU HAVE EVERYTHING

Marpai's *SMART Health Plan Services System* helps self-insured companies get ahead of it all with a new way to create healthier lives, reduce costs and generate greater plan value.

Powered by deep learning, the most advanced artificial intelligence, the *SMART Health Plan Services System* helps members live better and spend less on healthcare while reducing the costs of care, reinsurance and administration.
Only Marpai's SMART, integrated, end-to-end system analyzes all structured and unstructured data and uses SMART automation to eliminate excesses, errors, and inefficiencies. It also collects data across the system to yield insights for improved plan design, more cost savings and greater plan ROI.

- Reduce costly re-admission rates, ER visits, unneeded procedures, chronic care and major procedures when members take proactive actions, access top quality providers, use benefits and take the best care journey.

- Reduce stop loss premiums with future health cost and event predictions that provide full cost transparency.

- Reduce administration costs with automated claims adjudication, streamlined processes and the elimination of excesses and inefficiencies.

TRUE CARE RUNS DEEP

Marpai is a patient empowerment tool that helps providers better meet changing patient demands, reduce administration costs and focus more on care delivery. Marpai's *SMART Health Plan Services System* is an automated end-to-end health ecosystem powered by deep learning. It features SMART claims adjudication, accelerated workflows, actionable insights, and 24/7 responsive service. In addition, Marpai guides members to seek top quality providers and encourages proactive health for better living, which produces greater patient volume with less administrative costs. With Marpai, life only gets better.

GO AHEAD, PICK OUR BRAIN

Marpai is a pioneer and world leader in deep learning, the most advanced artificial intelligence. At Marpai Labs, top AI data scientists work together with health providers to build algorithms, models and tools to drive greater health outcomes, cost savings and member empowerment. Our deep learning AI processes the most comprehensive structured and unstructured data including claims, electronic health records, X-rays, lab results, notes, social determinants, provider ratings, and Marpai SMART system data. We continue to build new models around specific disease states and conditions to improve proactive interventions. The ultimate brain for the ultimate in health empowerment.

Most Advanced AI
Deep learning is the most advanced artificial intelligence that mimics the workings of the human brain in processing structured and unstructured data faster and more accurately than humans.

OUR MISSION:

Save lives, improve lives and radically reduce healthcare spending.

Marpai exists to create healthier people and stronger self-insured companies by empowering greater care and lower costs. We are the SMART health plan company delivering the ultimate health plan experience using deep learning, the most advanced AI, to avert and reduce suffering, improve care quality and make healthcare easier. We provide a deeper understanding of health that gives a deeper meaning of life so everyone can live their best today and tomorrow.

We believe all the things that lead to a full life are of your own making. We want you to BE all you can be, what you want to BE, and BE in the moment. BE more in charge of your health and your life. Go after, hold, and live forward to EVERYTHING that means a full life. Marpai helps you to BE it all. What will be? It's up to you.
