## The SMART Health Plan Company

Marpai Health is the first to bring the most advanced machine and deep learning AI to health plans to radically reduce costs, improve health outcomes, and simplify the health plan experience.

The Marpai *SMART Health Plan Services System* puts members at the center of it all. It is a health empowerment ecosystem that enables members, employers and providers to do things they could never do before.

## SMART Health Plan Services System Features

### FutureSight Advantage

Our deep AI predicts the future health state of each member to uncover hidden health needs so they can take action today to prevent and reduce problems tomorrow - especially chronic conditions and costly procedures.

### TopCare

We guide members to the top 10% of in-network providers by analyzing peer-reviewed, risk adjusted metrics on provider quality, safety, and patient satisfaction. Data shows that top quality providers improve health outcomes and reduce costs.

### Care Guide Team

Our medically-trained experts simplify complex care and map the best journey across the care continuum for a highly customized, effective, and efficient member experience.

### SMART App

This virtual assistant simplifies, streamlines, and brings everything together in one easy, personalized experience. Book appointments, receive reminders, track deductibles, order prescriptions, review benefits, access telehealth, see lab results, and more.

### SMART System

Our AI-powered, fully-integrated, end-to-end system reads structured and unstructured data and automates routine processes, to eliminate excesses and inefficiencies, identify and resolve problems, accelerate workflow, rapidly adjudicate claims and reduce administrative work.

## Get Ahead of It All

Marpai's SMART, simple, integrated AI-powered system helps employers reduce costs, achieve greater health outcomes, and improve plan value. Our deep-learning ecosystem continually collects data to yield insights that save money and drive engagement. Because we provide 100% cost transparency, employers can discover more ways to reduce the costs of quality care.

Good health never felt better.

Happy, Healthy,  
Productive Employee  
Plan Value and Use  
Quality of Care  
Plan Design  
Member Engagement  
Savings & ROI

Healthcare Costs  
Stop Loss Premiums  
Administration Costs  
Chronic Care  
Costly Procedures  
Cost Excesses

## Go Ahead Pick Our Brain

Marpai is a pioneer and world leader in deep AI. At Marpai Labs, top AI data scientists and health providers work together to build algorithms, models and tools to drive greater health outcomes, cost savings and member empowerment. Our deep learning technology processes the most comprehensive structured and unstructured datasets including claims, electronic health records, X-rays, pathology slides, notes, social determinants, provider ratings and Marpai SMART system data. Because what you don't know, just might be the answer to everything.

## Where Life Only Gets Better

Marpai's *SMART Health Plan Services System* provides a deeper learning of health that gives a deeper meaning of life, so everyone can live better, stay stronger, and spend less on healthcare. Our ability to predict and prevent lets everyone protect what matters most and enjoy all the tomorrows ahead.
