

# MARPAI

The most advanced AI capabilities helping providers get ahead in the new world of health.

Marpai Health is the SMART health plan services company using deep learning capabilities to accelerate claims processing, increase provider visits, reduce administrative work, deliver 24/7 responsive service and meet new patient demands for tech-enabled benefits like digital scheduling and payment tracking. Marpai's *SMART Health Plan Services System* enables members, employers, and providers to do things they never could do before resulting in healthier lives and greater savings for all.

## SMART Health Plan Services System Features

### FutureSight Advantage

Our deep learning capability maps future health states to uncover hidden insights for early detection and intervention to prevent and reduce the onset of costly chronic health issues and major procedures.

### TopCare

We guide members to the top 10% of in-network providers by analyzing peer-reviewed, risk-adjusted metrics on provider quality, safety, and patient satisfaction. Data shows that top-quality provider care improves health outcomes and reduces costs.

### Care Guide Team

Our medically trained experts simplify complex care and map the best journey across the care continuum for a highly customized, effective, and efficient experience.

### SMART App *(Coming soon)*

This personal health assistant simplifies transactions, stores information and empowers better living with friendly nudges and alerts. Book appointments, order Rx, track deductibles and spending, access telehealth, order transportation and more.

### SMART System

Our deep learning-powered, fully integrated, end-to-end system analyzes and collects data and automates processes to eliminate excesses and inefficiencies, accelerate workflow including automated claims adjudication, yield valuable insights for improved plan design and value, and deliver responsive 24/7 service.

## Get Ahead of It All

Marpai is the only health plan company to use deep learning, the most advanced artificial intelligence, to drive SMART automation so healthcare providers can spend less time on administration and more time on care. And Marpai meets the new and emerging patient demands such personalized real-time information, telehealth, cost saving opportunities and health reminders so providers can focus on what's most important – care delivery.

Good health never felt better.

More Engaged Patients  
Time and Cost Savings  
Proactive Care  
Future Health Insights  
Quality Patient-provider Time

Cumbersome Administration  
Manual Claims Processing

## Go Ahead Pick Our Brain

Marpai is a pioneer and world leader in deep learning, the most advanced artificial intelligence. At Marpai Labs, top AI data scientists and health providers work together to build algorithms, models, and tools to drive greater health outcomes, cost savings, and member empowerment. Our deep learning processes the most comprehensive structured and unstructured data including claims, electronic health records, X-rays, lab results, notes, social determinants, provider ratings, and Marpai SMART system data. At Marpai, AI not only means the most advanced artificial intelligence, it also means the greatest actual improvements.

## Where Life Only Gets Better

Every Marpai Health plan is SMART which means deep learning-driven SMART automation that accelerates claims processing, reduces time spent on administration, delivers 24/7 responsive service, and guides more patients to see more providers. And, Marpai's SMART system meets changing patient demands for tech-enabled benefits, so providers don't have to. With Marpai, providers break away from the challenges of traditional health plans to grow into the future with the power of SMART health.
