

A close-up photograph of a young Black woman with a joyful expression, looking down at a smartphone held in her hands. She is wearing large white over-ear headphones and a grey top. A red strap, likely from a bag, is visible over her shoulder. The background is a blurred city street scene.

Filling Gaps In Care

**NO ONE PLANS
ON GETTING SICK,
BUT YOU CAN PLAN
ON STAYING WELL.**

With friendly digital reminders at the right time, we make it easy for members to stay current with annual exams, screenings and vaccinations. It's part of how we help everyone stay strong and spend less on health care.

KEEPING MEMBERS ON TRACK WITH ANNUAL CARE

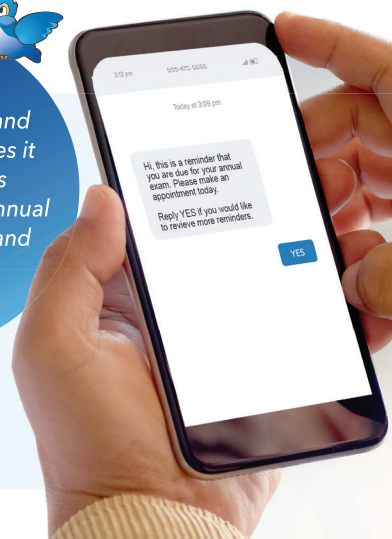

**MARPAI FILLS
GAPS IN CARE
FOR ANNUAL:**

Marpai's SMART system identifies members due for annual exams, screenings and vaccinations. We send personalized texts and emails to members to drive them to make an appointment.

Face-to-face contact is the number one tool for better health care. The most meaningful engagement occurs in the exam room. When members maintain face-to-face appointments, it allows providers to perform immunizations, order lab tests, and complete other preventive care measures. This helps improve health outcomes and reduce costly events.

Checkups
Flu Vaccine
Cervical Cancer screening (PAP)
Mammography
Bone Density Test
Prostate Cancer Screening (PSA)
Lung Cancer Screening
Diabetes Checkup

With friendly texts and emails, Marpai makes it easy for members to stay current with annual exams, screenings and vaccinations.

Close the Gap

Adhering to recommended preventive care, like getting an annual cancer or diabetes screening, leads to better health outcomes due to early diagnosis or maintenance of a chronic condition. When certain conditions are caught early, treatment can start sooner, leading to lower health care costs and higher quality of life. Marpai deploys a proactive, year-round plan that aligns data analytics with a focused approach for filling gaps in care.

MARPAI
What will be.
