REPRICING INSIGHTS

POWERED BY FIREFLY

Your solution for innovative network management and claims repricing.

Repricing Insights powered by Firefly is an end-to-end claims repricing platform supported by HIPAA compliant, custom-built software and backed by the most comprehensive and up-to-date price reference database in the industry. Here's what it can do for you:

- Manage end-to-end workflow claim filtering, direct contracts, and out-of-network repricing
- Conduct billing and coding audits that exceed market standards
- Analyze different network strategies inclusive of stand-alone solutions, narrow networks, and reference-based pricing plans
- Support negotiated provider agreements, supplemental networks, Medicare multiples, cost plus, and reasonable market value

HOW IT WORKS

TOTAL PERFORMANCE SCORE

Reviews clinical quality, patient coordination and experience, safety and efficiency of facilities in a geographic market.

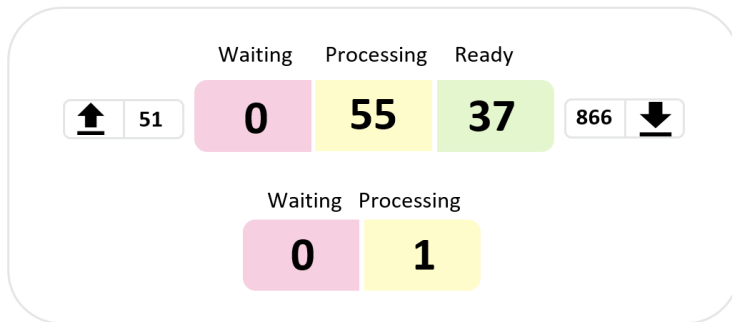

LOCATION

The map displays facilities within the selected geographical area.

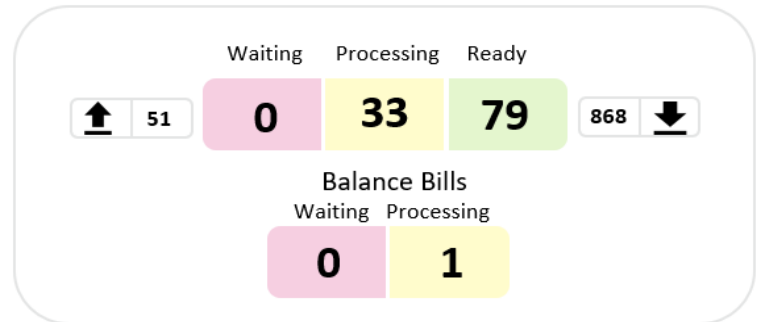

COST PLUS

Shows cost-to-charge ratio (CCR), contractual cost charges, the hospitals facility/specialty type and number of beds available. Data includes inpatient and ICU days, cost per day, and average charge per day.

CLAIMS DASHBOARD

BALANCE BILL DASHBOARD

Summarizes the total claim count and balance bill count in each stage, along with the total days since receipt of the claim. It also displays the number of claims ready to be imported and exported.

ADDITIONAL BENEFITS

- Review provider billing practices, reimbursement results, and hospital finances to help create tailored network strategy
- Establish and process sophisticated direct contracts that include bundles, outlier provisions, and case rates without software development
- Filter and process inbound clearing house claims based on plan, group, and facility/provider
- Built-in invoicing and reporting capabilities

- Move claims up or down in workflow to facilitate prompt-pay arrangements
- Create outbound EDI of repriced claims for adjudication systems
- Achieve up to 70% average savings on out-of-network claims
- Track appeals and balance billing for reference-based pricing plans, claim appeals, and No Surprises Act (NSA) arbitration
- Supports customized claim flow 'Blueprints' that make innovative network strategy deployment simple and scalable

- Can be utilized as a stand-alone reference-based pricing application
- User interface provides full transparency allowing for real-time status on all claims
- Includes post payment support services such as:
 - Appeal responses
 - Member education & communication
 - Balance bill support
 - Dispute resolution
 - Single case agreement and negotiation
