

LOWER SPECIALTY MEDICATION COSTS

Marpai Pharmacy Advocates help uncover specialty medication savings to make your prescriptions more affordable.

Save Money on Specialty Medications

Your medications are important to your health. Sometimes the high cost of specialty medications can create a challenge. If you are on specialty medications, our Pharmacy Advocates will work with you to fill your prescription in the most affordable way. This service is provided by Marpai at **no cost to you**.

Pharmacy Advocates Find Savings

Marpai Pharmacy Advocates are experts who know the complex pharmacy landscape and how to save money on specialty medications (the ones that often cost the most). They work with you one-on-one to understand your prescriptions and challenges, find discounts on specialty medications and even track down alternate funding sources when available. **This often leads to zero out-of-pocket and co-pay costs for you!**

Working with Your Pharmacy Advocate

If you are on a specialty medication, Marpai will assign a Marpai Pharmacy Advocate to work directly with you for as long as needed. Once your advocate assesses all of your needs and understands your specialty medications, they will help you process the required paperwork and get started. It's that simple. They will find the most affordable way to buy your specialty medications and track down available alternate funding sources to further reduce costs.

Together, you will determine a convenient path that gives you the greatest cost savings. Your advocate will continue to follow up with you monthly to ensure you've received your medications, assist with any refills, and help you stay compliant with your prescription.

If you are starting a specialty medication and want to speak with a Marpai Pharmacy Advocate, please call 1-800-226-6302 or submit a request to pharmacyhelp@marpaihealth.com
